Medicine Association, Kerala Chapter

TINY TACTICS

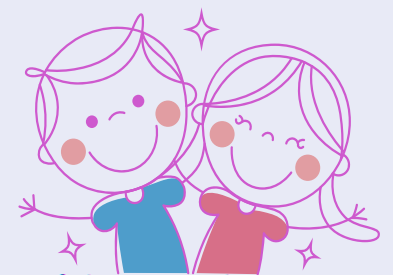

PEDIATRIC EMERGENCY & RESUSCITATION WORKSHOP

Emergencies in newborns and children require rapid assessment, precise skills, and confident decision-making.

Here we present—TINY TACTICS-PEDIATRIC EMERGENCY AND RESUSCITATION WORKSHOP—with interactive skill stations, simulation-based training, and evidence-based guidance, aligned with current resuscitation standards. Our aim is to help participants gain essential experience in neonatal resuscitation, airway management, shock management and pediatric trauma. Emphasis is placed on teamwork, communication, practical competencies, and real-time clinical response in high-pressure situations.

The Department of Emergency Medicine, Lourdes Hospital, in association with EMKERALA 2026, cordially welcomes you all to enhance your emergency readiness, improve clinical performance, and help deliver safer, life-saving care to our youngest patients.
